## **AFFIDAVIT**

State of California

San Luis Obispo County

I, Robert R Heide, attest that my statements are true to the best of my knowledge.

**Comment** round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Robert R Heide. My address is 3940 Broad Street 7404 San Luis Obispo, Ca. 93401

2. I am an Electrical technician.

3. FCC does not possess the expertise to set biologically-based radiofrequency radiation safety limits. EPA does. Therefore, the FCC should advocate that Congress direct the EPA to establish biologically-based radiofrequency radiation safety limits and provide the budget and resources to carry out that task. [2012 HR6358](#) was an excellent example of legislation to authorize the EPA to establish biologically-based radiofrequency radiation safety limits. The FCC's failure to protect the health and safety of citizens by providing updated biologically- based RF safety limits on electromagnetic radiation exposure has cause suffering to those who are sensitive to EMF. Communities are not even aware that radio tower are installed and hidden in residential area. Cellular towers within 100 feet of exposing children 24-7 EMF levels far above safety levels.

Respectfully submitted by

Robert R Heide
